

A Place to Explore

Valentina Rojas

Oh, the Places
You'll
Go!

Reason and Objective

Inspired by the calmness found in nature and organic forms.

An environment for kids ages 2-4 to both **relax and stimulate movement**, through the **exploration of textures and activity zones**.

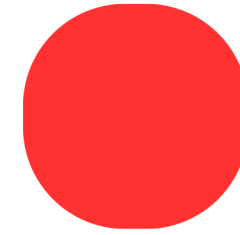

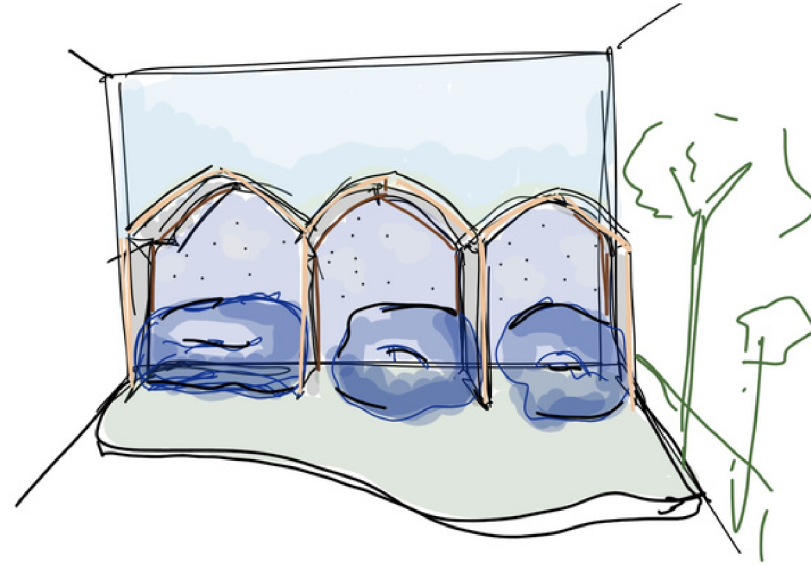

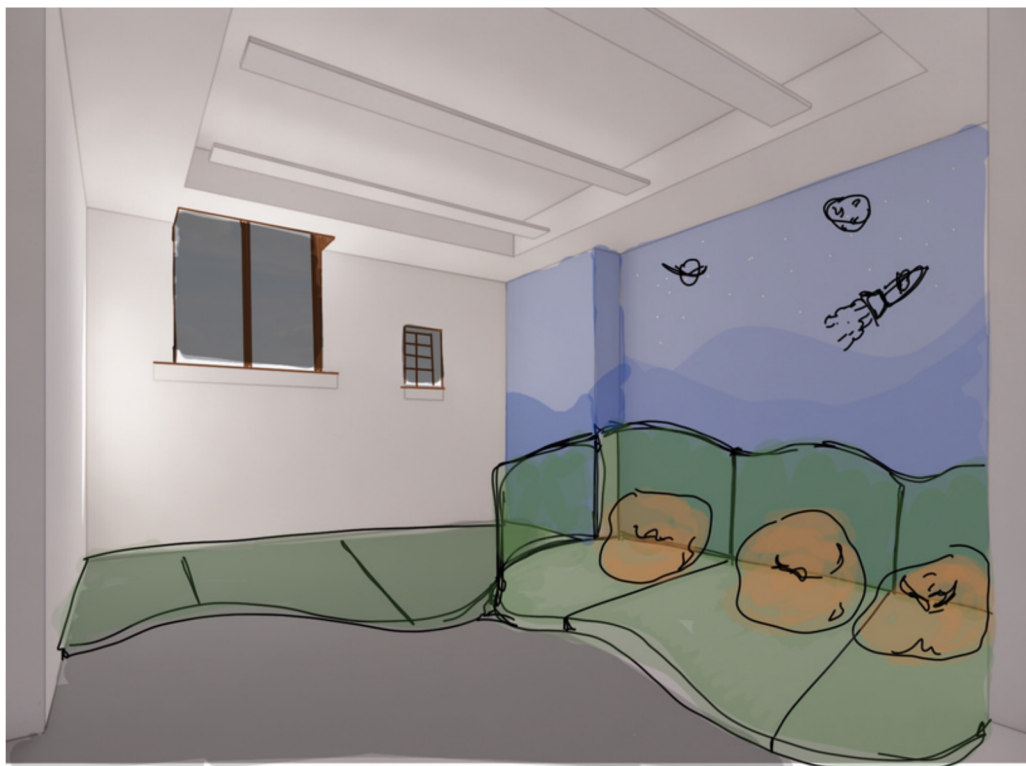

Before

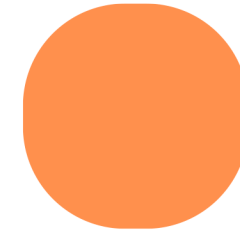

What we don't like: "Everything!"
(The color of the walls, hard flooring)

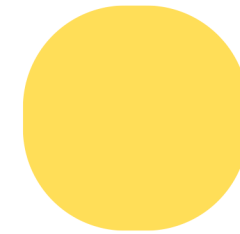

Sketches and Color

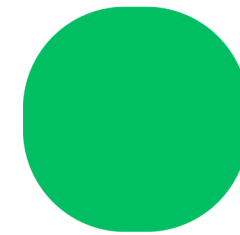

Excitement. Too much red is overwhelming.

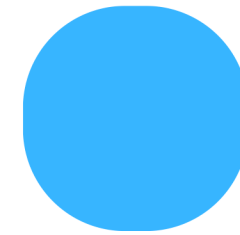

Happiness. Helps with **social skills** and **friendships**.

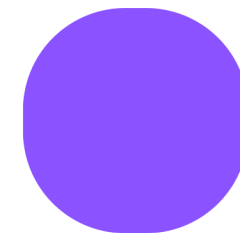

Concentration. **Intense** tints in calming spaces can lead to **frustration**.

Calming color and safety.

Calming. Too much blue can **increase depression or anxiety** in a child's life.

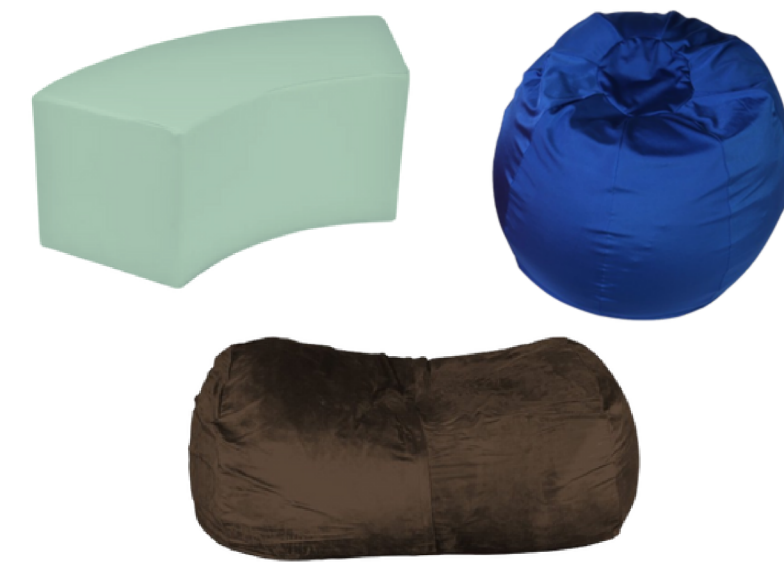

Creativity and **overall well-being**.

Floor Plan and Floor Material

Wood patterned foam flooring

Soft lounge seating
